Power to Be Used For: _____

If power is used to supply a camper/RV, an approved septic system must be in place prior to Meter Base Application Approval. Maximum 100 AMP Service ONLY – Copy of Current Registration Must be Attached with Application.

A.E.M.C. Georgia Power

**** An Affidavit from a licensed electrician will be required prior to inspection****

2 Hour Rule: Georgia Department of Public Health’s Rules and Regulations regarding On-Site Sewage Management Systems (OSSMS) – Chapter 290-5-26.03(1) states that a septic system is required for “every (structure) building, residence or property, deigned, used or intended to be used for human occupancy or congregation. ‘The lessee or agent, property owner, or authorized person(s)’ shall provide an approved OSSMS (septic system) sufficient for the persons normally expected to use or frequent the building, residence or other property for two (2) hours or more.” Violations are subject to legal action through the Gilmer County Court System and are punishable as a misdemeanor and/or fines as in accordance with O.C.G.A. Chapter 31-5.

Gilmer County and it’s building inspectors are hereby relieved from any liability, damage, or loss associated with connection or disconnection of this service.

I _____ CERTIFY THAT I HAVE READ THIS APPLICATION AND HEREBY ACKNOWLEDGE THAT IF I AM TO NEED POWER FOR A CAMPER OR RV, SEPTIC INSTALLATION WILL BE APPROVED PRIOR TO THIS APPLICATION / INSPECTION.
